

Summary of Barn/Silo Redevelopment
Solicited by members from members
February 16, 2013

- Where is:
 - Quilting room
 - Pool area
 - Place to have bar party
 - Dinner shows
 - Luncheon
 - Cards
 - Library
 - Meetings
 - Food preparing kitchen
 - Entertainment area
 - Why are we getting less for the money?
 - Why is hired help getting the view? Put them downstairs with pro shop, and closets for storage and maintained supplies.
 - Golf carts placed in addition to cart barn not stored half year in a community center
 - Community building not a golf and not office building for a few
 - This is a community building for all its members!
- Shut down association, it does nothing for us! When we signed for it the assn. had it all recently is all golf and tennis
- Check the DCC&R's about charging fees without 70% of members voting (total members)
- Does not meet needs of community (5 persons)
- Where is the quilt room
- Do not like current plans, make meeting room larger, redesign placement of bar and bathrooms
- Seems like this barely serves the needs of very few residents

- Very poor planning, put offices in back and bar up front, larger community room with stage
- We need larger are for community events including a stage area
- Want bigger meeting area for dinner shows, etc...
- Please re-visit the SVRA office locations and have a bigger meeting room
- Place meeting room in the back of the building, make bar larger and put offices in the cook shack
- We need a larger community room for dinner, and shows, current plans are ill-designed
- Wait till you have more money
- Build a facility that serves the “whole” community – larger community room, larger bar, pool room, a place for children to get together, etc...
- The new building is not designed around the needs and activities of the Star Valley Ranch Community. There is a great reduction in space for community activities, meeting, storage, for community activity supplies/equipment and eating area (Bar/Food). The new proposed building should not focus on the needs of the Association office spaces but the needs and activities of the Star Valley Ranch Community. It would be a big injustice to the Star Valley Ranch Community to approve this building.
