

# Star Valley Ranch Community Center Development Survey 1

Thank you for taking the time to fill out this survey. The purpose of this survey is to aid in the design of a Community Center, located at the site of the current Barn and Silo in Star Valley Ranch. Star Valley Ranch Association working in partnership with The Town of Star Valley Ranch are in the process of applying for a Community Center grant of \$1 million. A Community Center Project Team has been given the charge to design the Community Center through input of the Members of Star Valley Ranch Association and citizens of The Town of Star Valley Ranch. **The various items on this survey were compiled from numerous sources including the 2006 and 2010 Community Assessment and the 2006 SVRA Long Range Planning Study Group. The survey responses that we will receive from the members of Star Valley Ranch Association and citizens of the Town of Star Valley Ranch are crucial as we decide what should be included in the design of the proposed Community Center.**

The survey contains three separate sections. Section 1 includes items that require dedicated space that must be set aside within the Community Center. Section 2 includes items that can utilize space already designated for other uses (i.e. Gym, Library, etc.) in the Community Center. Section 3 includes items that will not necessarily be associated with the Community Center, but represent the direction that Star Valley Ranch might eventually work towards as a community. As you complete this survey, please use the blank lines at the end of each section to add your additional suggestions. Also, for each section, indicate the highest priority with a 1, the second highest priority with a 2, and so on...

It is the desire of the Community Center Project Team to design a facility that will be an integral part of the general vision for a beautiful, friendly, fun, and affordable community. While we will make every effort to design this building according to the dictates of the members and citizens, it should be understood that due to budget constraints, not all wishes and desires will be able to be put in place. Again, we thank you for your time and hope that together we can create a facility that will benefit us, our children and our grandchildren for years to come.

**Plat \_\_\_\_\_ Lot \_\_\_\_\_ To help us avoid duplication of responses, please indicate your plat and lot number.**

**Please use the blank spaces at the end of each section to add your additional suggestions.**

**For each section, indicate the highest priority with a 1, the second highest priority with a 2, and so on....**
